

# POT HOLES !!!

We'll always have problems with things like roads. Yet despite them, we can live peaceably in our communities. But what about society's morals? How long can they be neglected? Ask why the Republicans and Democrats have progressively abandoned moral values and give your vote to a candidate who puts the following issues first:

RIGHT TO LIFE

ANTI-GAMBLING

ANTI-ALCOHOL / DRUG

AGAINST THE HOMOSEXUAL AGENDA

LOCAL FUNDING / CONTROL OF SCHOOLS

CONSTITUTIONAL RIGHTS

ANTI-PORNOGRAPHY

JUDICIAL REFORM

# **THE PROHIBITION PARTY**

was organized in 1869. Today it stands as the oldest third party in America which has without fail fielded presidential candidates. From its inception the Prohibition Party has stood in defense of Constitutional rights and moral values. Historically by its constant pressure in the ballot box the Prohibition Party was instrumental in forcing the major parties to address issues like women's rights to vote, local and national prohibition, and child labor laws. Today the Prohibition Party continues to press for social reform including stands against pornography, against the homosexual agenda and against the uncontrolled killing of innocent unborn children. The Prohibition Party welcomes your support in the ballot box and is anxiously looking for candidates. We want common people with and uncommon commitment to moral values and Constitutional rights.
